**TRANSMITTAL OF THE BUILDING 891 – RECONNAISSANCE LEVEL CHARACTERIZATION
REPORT (RLCR) – DWF-063-05**

Provided for your review and approval is the enclosed subject report for Building 891. This report characterizes the physical, chemical and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

Based upon this RLCR and subject to concurrence by the CDPHE, Building 891 is considered to be a RFCA Type 1 facility pursuant to the RFETS Decommissioning Program Plan (DPP; K-H, 1999), met all Pre-Demolition Survey Plan unrestricted release criteria, and is acceptable for demolition. All contaminated and potentially contaminated equipment and systems have already been stripped out and removed from the building in accordance with the Component Removal RSOP (RSOP approval letter dated 6/24/05).

Please notify Kaiser-Hill when you transmit this document to CDPHE. If you have any questions, do not hesitate to call me or Duane Parsons at extension 6458.
